

October 1, 1993

Alexandra Wilson Chief, Cable Services Division Mass Media Bureau RECEIVED

MAR 2 4 1994

Dear Alexandra,.

FEDERAL COMMUNICATIONS COMMISSION
OFFICE OF SECRETARY

Enclosed within this package you will find the rate surveys for our 10 largest systems (both in disk and hard copy form) along with their respective rate cards and channel lineups. As you will note, the average basic rate for these systems decreased by \$.69, while the average regulated revenue per customer dropped by \$2.50. As you will note, the majority of revenue loss relates to the elimination of charges for remote controls and additional outlets which should be balanced against changes in basic and tier rates. The results of this survey are reflective of the revenue losses incurred by the remainder of our cable operations.

Should you have any questions, please let me know. K^+

Sincerely,

John McCabe

1001 0 4 1993

WHAT TO DO IF THE PICTURE ISN'T RIGHT

This doesn't happen often, and when it does, it's usually something simple. Check the tips below for help. If the picture still isn't right, call us. We'll happily help you. Did you know we're ready to take your call any day at any time? At no charge, of course.

FIRST CHECK ...

- TV plugged in?
- power cord in good condition?
- TV on the right channel? (see 5 below)
- cable converter plugged in?
- other outlets working?
- cable connections tight?

IF YOUR SET HAS...

Normal picture, no color, wavy lines, buzzing sound

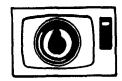

2. Dark picture

3. Rolling picture

4. Picture pulls to left or right

5. Stations on the wrong channel

6. Diagonal lines in picture can't be fixed by fine tuning

7. A vertical bar moves through the picture

8. Dark horizontal bars move through picture

Snowy picture, sound ok or snowy picture, hissing sound

THEN...

- 1. Adjust the fine tuning
- 2. Slowly adjust brightness and/or contrast control
- 3. Slowly adjust vertical hold
- 4. Slowly adjust horizontal hold
- If you have a converter box put the TV on channel 3
- 6.-9. Call Jones Intercable

JONES INTERCABLE RATE CHANGE UPDATE

The rate for **Limited Basic** service will decrease. This service is now regulated by the City of Tampa.

The Tier 1 and Tier 2 service levels are now regulated by the Federal Communications Commission. The monthly rate for these services will be adjusted upward based on a comparison of cable system prices across the country.

We will no longer charge a monthly rental fee for remote control devices. If you currently rent a remote from us, it is yours to keep at no additional charge. We now sell universal remotes for a nominal one-time fee.

There will no longer be a monthly fee for additional outlets in your home.

There will be a new monthly fee for each converter bez in your home. The price will vary according to what type of converter you have (see Equipment tab for details).

^{*} Ther One service requires the purchase of Limited Besic. Ther Two service requires the purchase of both Limited Basic and Tier One service.

^{**} Additional charges are applicable for services such as VCR hook-ups/tuning, video game hook ups, etc... Contact your customer service associate for details.
